Fireworks frighten animals

Fireworks can be a source of fear for many animals but it doesn't have to be that way. Don't ignore the problem – follow our top tips to make fireworks celebrations less frightening for your pets.

Keeping pets secure

Give your cat or dog somewhere to hide that they have access to at all times, e.g. under furniture or in a quiet corner.

Walk dogs during daylight hours. Keep dogs and cats indoors when fireworks are likely to be set off.

At nightfall close windows and curtains. Put on music to mask the sound of fireworks.

Make sure your pet can't escape if there's a sudden noise. Have them microchipped just in case.

Never punish your pets when they are scared as this will only make things worse in the long run.

It's fine to comfort your pet if it helps them relax, or leave them alone unless you think they will harm themselves.
